We are not entirely satisfied with this reproduction both
from an engineering and practical standpoint, first,
because your prints are not sufficiently sharp and, second,
that you have cut off both east and west approaches to the
bridge, which we think detracts considerably from the
appearance of this structure.

We much prefer that view show the entire bridge from one
approach to the other and, if possible, include semaphore
signal on east bank. As your print now stands, we do not
think it shows the proper perspective and fails to do
necessary justice to this structure, particularly as
concerns its relation to other bridges over the country.
